ABOUT ME

A highly motivated individual with a passion for tech. I bring years of experience at multiple tech companies that range in roles from a tech support operator to a dev team manager.

EXPERIENCE

General Assembly— (Fellow)

August 2020 - PRESENT

- Gained 27 weeks of intense FullStack development training
- Created various apps using both front and back end technologies/languages
- Created a Fullstack CRUD and RESTful website in which members of the diaspora can log in and get pertinent information on how they can help their homeland, search news feeds, donate and make posts.

Fleetup, San Jose/Glendale CA — *Manager, US Tech*

October 2019 - Present

- Oversee two departments in organizing our efforts to a common goal, creating a user friendly working app/software that can freely communicate with hardware in order to deliver a happy customer experience.
- Project management, Debugging, JSON editor, Case management

Netflix, Salt Lake City Utah — *Technical Research Manager*

Sept 2017 - October 2019

- Oversaw a team of 15, which investigated customer issues and bugs to then send in for repair at HQ.
- Troubleshooting and debugging on front and back ends of applications across multiple devices and user interfaces, Mobile, console, PC, Mac, Tablet.

EDUCATION

General Assembly— *Software Engineering Immersive Certification*

August 2020-Present

SKILLS

- HTML/CSS
- JS/React
- Express
- Node.js
- SQL
- Python
- Github
- Ruby/Ruby on Rails
- Postman
- PGAdmin

PROJECTS

HOOOL - A one stop hub for the Armenian diaspora to get factual based news articles(newsAPI), make posts, search through articles, get calls to action, donate and view an event calendar.

TronRun - A fun flappy bird style game which runs on canvas and JS, that feeds into my love for the world of tech. Log into the grid and help Fin find his father and avoid obstacles that may come his way.

WeatherTrak- My take on a weather app that uses google api to pinpoint weather in locations you will want to visit and gives pointers on how to pack for your trip!

LANGUAGES

Armenian, Russian, English
